19

Below U.O.R.No.LBJ 2651/35115 dated the 21st May 1951, from Government in the Public Works Department.

No. ERM 31/2887 of 1951.
Bombay, 13th June 1951.

Returned, with compliments.

2. There are at present the following three sets in the power house at Byadgi:-

(1) 27.5 kVA Lister alternator coupled to a 38 H.P.Lister engine.

(2) 43.5 kVA A.C.E.C.alternator coupled to a 61 H.P.M.A.N. engine.

(3) 12.5 K.W.Century alternator coupled to a 15.5 H.P.International engine.

3. The total rated capacity of the above three sets is 69.3 K.W., but the safe carrying capacity is only 57.5 K.W. The peak load on the station goes to about 37 K.W.between 6.30 P.M. and 10 P.M. Set No.3 has been recently brought by the licensee from his power house at Haveri and erected at Byadgi to take care of the load after midnight, in accordance with Government p15 es Letter, Public Works Department, No.305/48(27)-EL(1) dated the 13th September 1950.

4. In view of the fact that the engine coupled to the 43.5 kVA generator is a M.A.N.diesel engine, the genuine spare parts for which are no longer available and which engine is over 12 years old, it is considered necessary that the Supply Company should order out an additional set of adequate capacity to cope with the anticipated increase in the load over the next few years as well as to serve as a standby, in the event of the M.A.N.engin failing.

Bombay 26th March 1952.

Returned with compliments.

2/- It has been confirmed from M/s. Escorts Agency Ltd., who have their office in Caltex Building, Fort, Bombay that they are able to supply the spares for M.A.M. engines even the very old models dating to 1935 and below. Their records do not show of any spares indented by M/s. Madvi Bros. Byagdi but they say that the Supply Co. may perhaps have placed orders direct with their head office in Delhi.

3/- Under the circumstances the recommendations as per para 4 at page 19 ante(flagged "A")may not be insisted upon.

Submitted with ref. to p27CS G.L. No LBJ 2651/K dated the 11-7-51.

2/- For the reasons stated in the above mentioned G.L., M/s Mani Bros, licensee of the Byadgi El. licence, 1937 were asked to go in for an additional set of adequate capacity and to intimate to Govt. the action taken. In reply, M/s Mani Bros informed p33CS that the genuine spare parts of the M.A.N. engine are freely available and they have already placed an order for such spares which are under clearance. The Elec. Engr. to Govt. was, therefore, asked p21 to offer his remarks in the matter. The Elec. Engr. now reports p23 that M/s Escort Agency are able to supply the spares for M.A.N. engines even the very old models. He has further stated in para 3 of his report that under the circumstances, the licensee may not be pressed to go in for an additional set. The licensee may, therefore, be addressed as per pp35-36 C.S. draft letter put up for approval.

MANVI BROTHERS,
Electric Light & Power Suppliers. GADAG.
Dist :- DHARWAR.

Date 19th April,1951.

To,

The Assistant Secretary to Government of Bombay,
Public Works Department, Bombay.

Subject:-Electric Supply at Byadgi.

Sir,

V 21

With referance to your letter No.305/48-(27)-El.(I) dated 6th April 1951 we have to bring to your kind notice that the Public of Byadgi and Municipality desires to have a supply through-out night. In this connection we have to inform you that we have not obtained a suitable small set to meet a small load at Byadgi afte midnight.

We have now got 2 A.C.Generating-sets to make use at haveri and the further progress of work at Haveri has been delayed for want of permission etc. So, we wish to install one smaller set of the above at Byadgi to meet the ~~xxx~~ small load after midnight till we arrange with another set for Byadgi.

We pray your permission for the above.

Yours faithfully,
For Manvi Brothers

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject:- Electric supply at Byadgi.

P.41 Referring to Government Public Works Department endorsement No.2651 K, dated 9th August 1952, I have to report that there are 2 sets one of 35 K.W. and the other of 22 K.W. capacity. They are capable of taking 30 K.W. and 16 K.W. respectively safely.

Maximum demand reached is 42 K.W. between 7.0 and 8.0 P.M.

There have been no interruptions during last six months.

Three requisitions are pending with the Supply Co.

The spare parts ordered for the 6 H.P. M.A.N. Engine have been received and also 3 cylinder heads replaced last month 16 piston rings for the 40 B.H.P. Engine have also been replaced last month.

Although the general supply position is satisfactory there is no stand by plant and the peak load has reached 42 K.W. as against the safe capacity of 46 K.W.

The....

The supply Co. should be asked to take urgent measures to put up additional plant of 50 K.W. capacity as standby as urgently as possible.
